MEMORANDUM FOR DIRECTOR, CENTRAL INTELLIGENCE AGENCY

SUBJECT: Augmentation of the USAF TALENT Control System

1. Authority is requested for the establishment of additional TALENT positions within the following USAF control structure as follows:

- a. 32 positions for Air Technical Intelligence Center
- b. 28 positions for Air Force Ballistic Missile Division
- c. 7 positions for SAC Missile Liaison Office.

2. The Assistant Chief of Staff, Intelligence has reviewed and approved position by position justifications for the additional spaces identified above. Following is a digest of the requirement:

a. Air Technical Intelligence Center. The 32 positions for the ATIC are predicated on manpower augmentations within the Supplemental Research function to provide for more extensive investigation of TALENT data in satisfaction of critical ATIC problems. This augmentation is associated with new construction and expansion of the TALENT control facility at the Center. ATIC is also engaged in developing advanced and sophisticated data handling systems for more effective exploitation of high quality intelligence evidence. A list of these positions are attached as Inclosure 1. These actions will establish the TALENT Table of Distribution for ATIC at 128 positions.

b. Air Force Ballistic Missile Division, Inglewood California. The 28 positions for the AFBMD involves the initial establishment of an approved Table of Distribution for TALENT spaces for the operation of that Command. The Commander, Maj Gen Schriever, and two other officers of the Ballistic Missile Division were previously cleared on individual need-to-know basis. In view of the scope of the Ballistic Missile Division and Space Program for which that organization is responsible, the Commander has justified 28 positions as a requirement for discharge of their mission. A list of these positions are attached as Inclosure 2.

c. SAC Missile Liaison Office, Inglewood, California. The seven (7) positions for the Strategic Air Command are located at the SAC Liaison Office, Inglewood, California. This organization is responsible for liaison

between SAC's 1st Missile Division which is responsible for operational employment of missiles, and the AFBMD which is responsible for missile developments and instrumentation. These seven (7) positions bring the SAC Command-wide total to 652 spaces. A list of requested positions is attached as Inclosure 3.

3. Request approval of augmentation of TALENT positions for the USAF as indicated above.

FOR THE CHIEF OF STAFF:

3 Incls

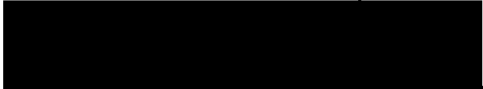

1. List of ATIC positions
2. List of AFBMD positions
3. List of SAC MO positions
